These homes in the neighborhood(s) indicated by the title above were reported sold (settled) during 2007 by the Metropolitan Regional Information System (MRIS). The high and low "Sold Prices" listed above represent the approximate range of prices in which you might expect to sell your home. Homes that sell for top dollar are normally in immaculate condition. The "Median Sold Price" is often a good measure of estimating what your home will sell for since it represents the middle of the road—50% of the homes sold for more than the median price, and 50% sold for less. This MRIS information is deemed reliable, but not guaranteed.
